# BUSINESS & DESIGN CONSULTANCY

## How We Work?

### 1- Business Analysis & Research

Understand the client's business goals, target audience, and project requirements. Also understand the target users' needs, behaviors, and pain points.

### 2- Competitive Analysis

Analyzing competitors' products and services to identify best practices and areas for differentiation.

### 3. Information Architecture

Defining the structure and organization of the content and functionality of the product.

### 4. Wireframing, Prototyping, & Creating Visual Design

Create wireframes and interactive prototypes.

### 5. Usability Testing & Design Iteration

Test, iterate, and refine for optimal design.

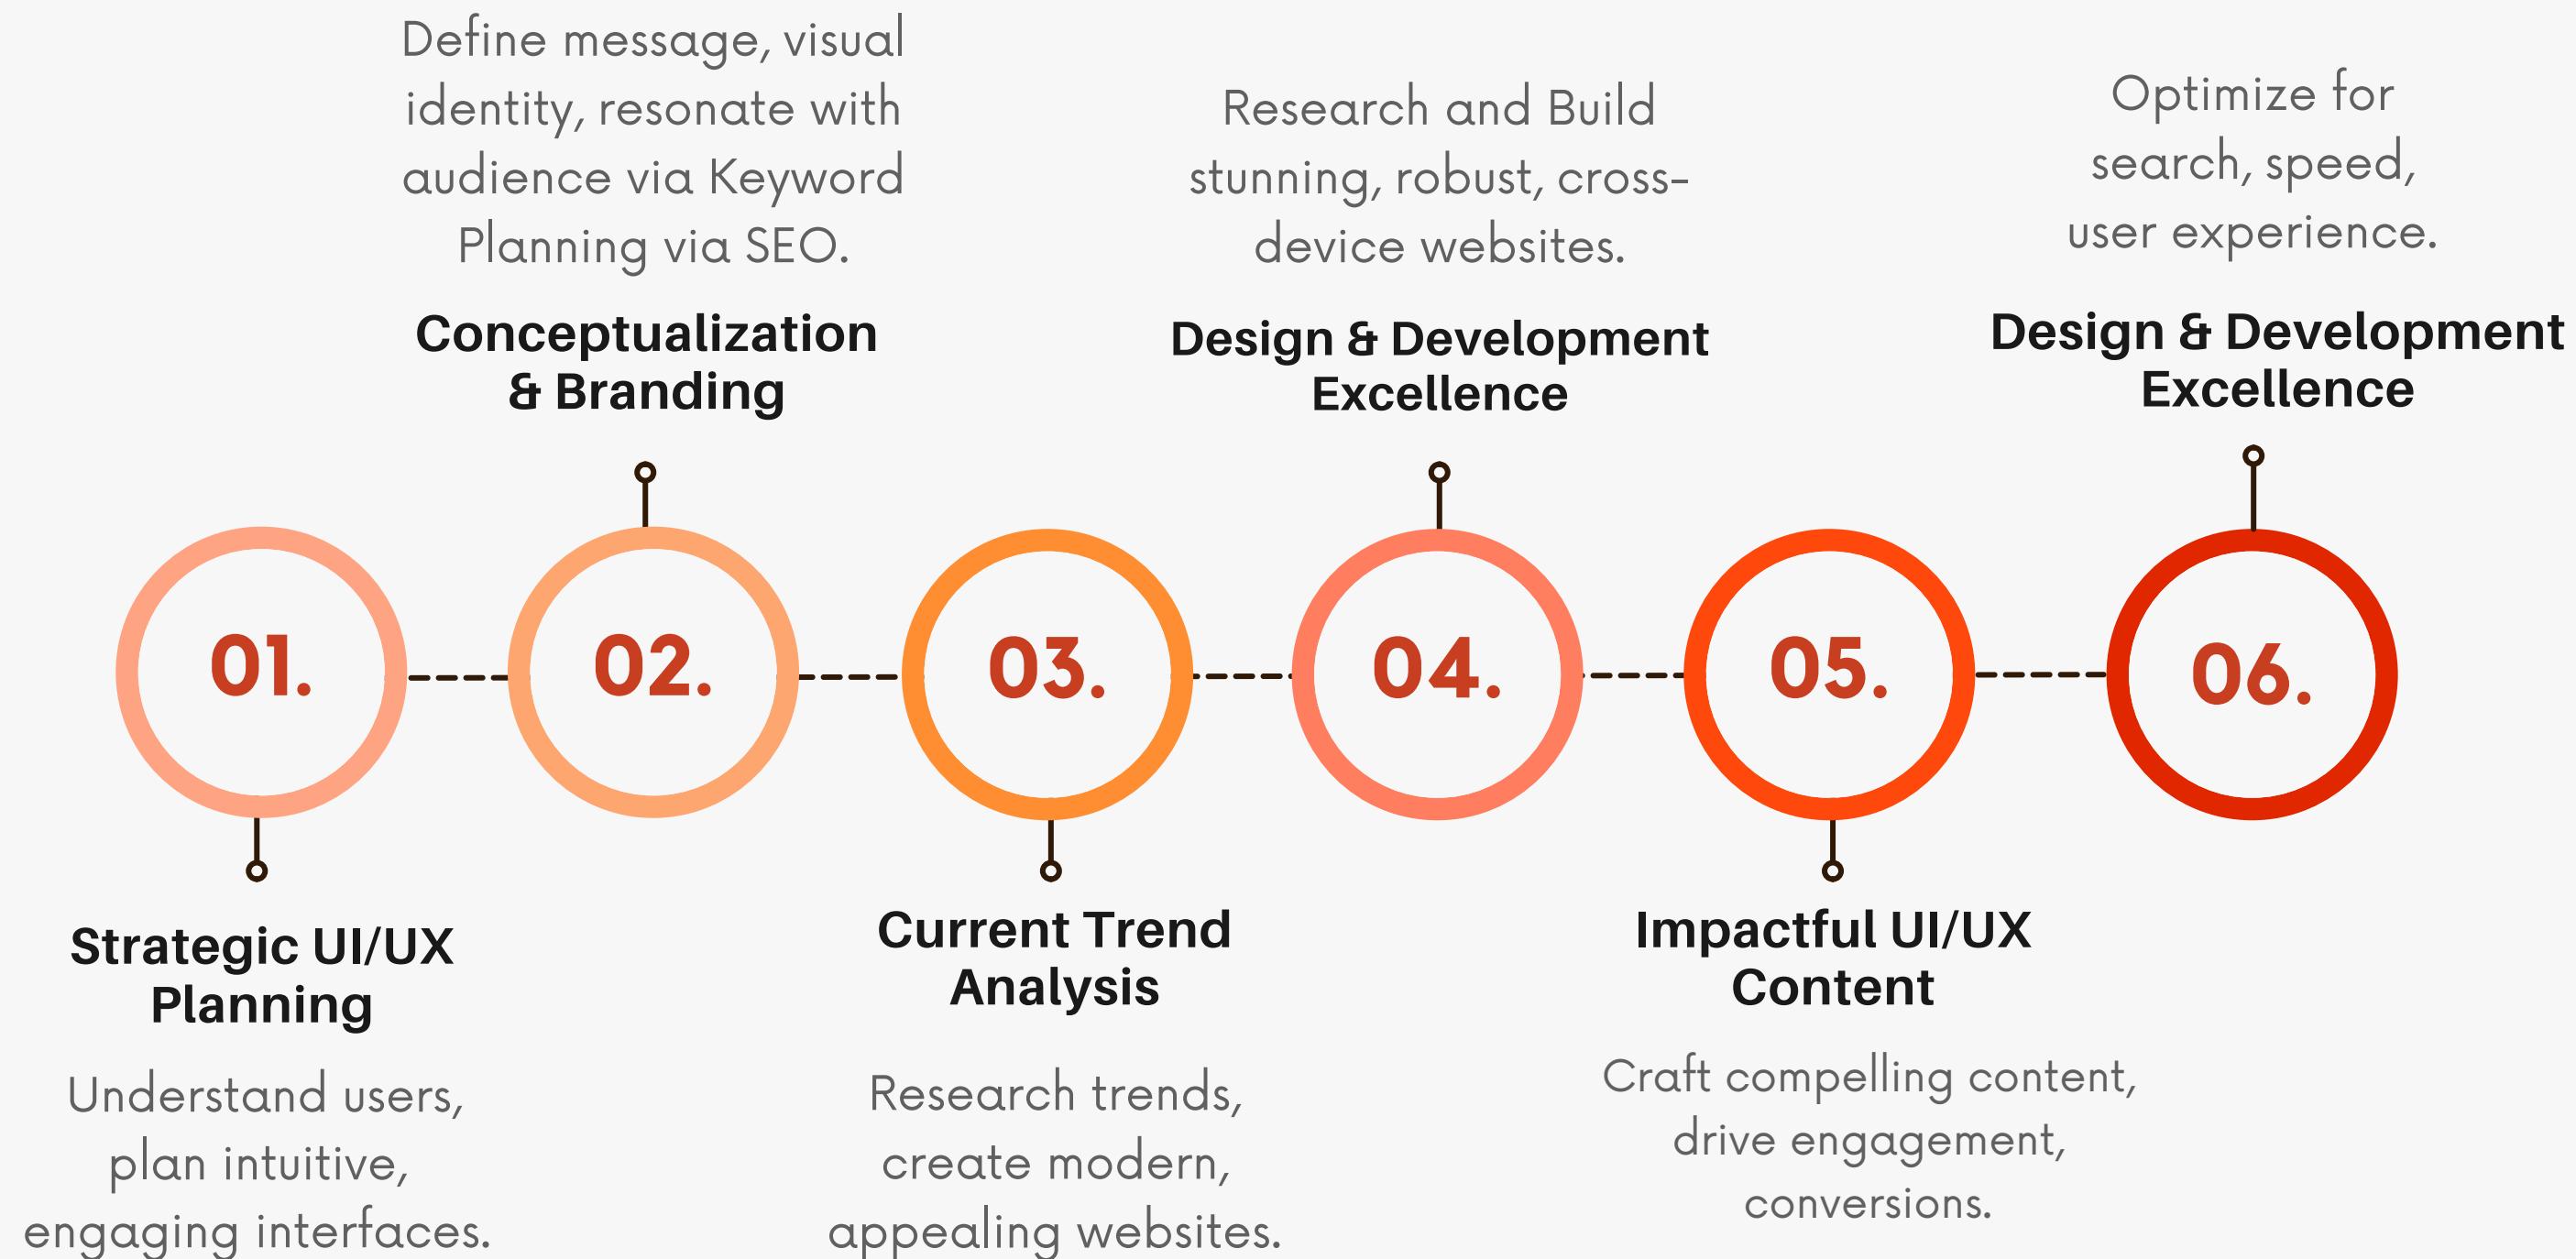

### 6- Design Handoff

Preparing the final design deliverables and handing them off to the development team.
